

TOP ELECTRIC SOLUTIONS is the official representative of SIGMA for Bulgaria

SIGMA which is one of the leading companies in the Turkish electromechanical zone, started its business with a MCB (miniature circuit breaker) at its own factory, established in 1993 in Istanbul, and continues to invest the Turkish economy with its new projects, improved every day.

sigma elektrik

In SIGMA Elektrik, the entire workflow from planning to marketing is carried out under the guarantee of the ISO 9000 quality management system. Each product is produced correctly according to IEC, EN and international standards, and after quality control, products are sent to customers.

sigma elektrik

Today, SIGMA Elektrik manufactures molded-circuit breakers, miniature circuit breakers, L / V contactors, LV current transformers and all low-voltage components at a factory in Istanbul / Turkey. Sigma, which focuses on the overall quality management concept, strives to be one of the leading brands in Turkey as well as around the world.
