

WAIN Electric

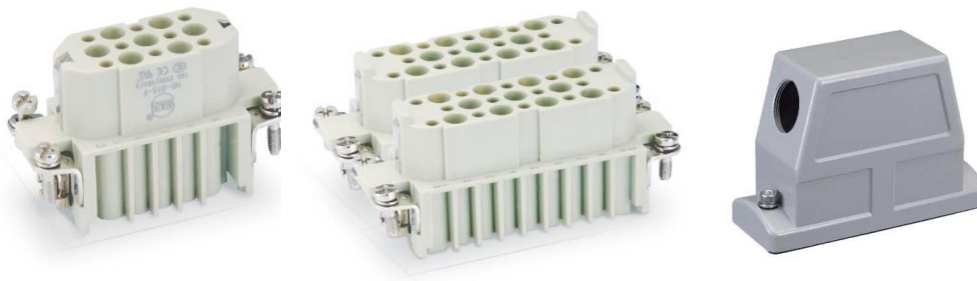

Xiamen Wain Electrical Co., Ltd. is an integrated enterprise engaged in the research and development, production and distribution of industrial connectors (heavy duty connectors). With firm support from national policies, Wain is committed to building a better brand through quality and technology. Wain is equipped with modern equipment and injection workshops, hardware, injection molding, galvanic coating, assembly and molds, with 95% of the used parts and components being produced independently. Wain is also proud of R & D and productivity testing laboratories, as well as various technology patents that have laid solid foundations for growth in the company.

Products:

Wain is continually introducing state-of-the-art technology, professional talent and sophisticated equipment to stimulate continued productivity improvements in the Wain product line. Wain adopts the most advanced concepts and processes in the industrial industrial console industry during the design and production of its heavy duty series product series. The company strictly complies with the standards DIN VDE0110, DIN VDE0627, DIN EN61984 and IEC60529 in design and testing, enabling it to provide its customers with high quality products. Wain launches the HA, HE, HEE, HD, HDD, HSB, HK and HQ product series and offers hundreds of combinations that meet the requirements for electrical or signaling in different areas and for different purposes. The WAIN connector has received VDE, UL, CUL, CE, CCC certificates.
